## LANDSCAPING STANDARDS/PRINCIPLES

In making decisions with respect to landscaping improvements within the CDS development, the following standards/principles are applied:

1. Consistency with other plants within CDS (e.g. native, mediterranean, Australian)
2. Uniformity within other plants within CDS (e.g. size and spacing)
3. Implementation cost within existing budgets
4. Manageable maintenance cost
5. Drought resistant plants only
6. No ground cover
7. No change in irrigation system requiring the use of more water
