

# The High Tide

June 2018

A newsletter for residents of Cañon del Sol

Vol. 1, Issue 2

## President's Message

The summer season is upon us. We had a period of "June gloom" in late May as the typical summer weather arrived early. Notwithstanding the weather pattern, solitary walks on the beach are no longer the norm as the "crowds" from over the hill and inland head to the beach to enjoy what we can experience and enjoy on a daily basis.

On the HOA front, unfortunately there is little progress to report on either the Sand Dollar median improvements or the restoration of the stairs to the beach from Manresa Uplands State Park. They are in the hands of the County and the State respectively. We will continue to pursue them as best we can. I hope all of you received my communication regarding the stairs and were able to take the time to send a letter to Secretary Laird regarding the allocation of the funds for the restoration project. If not, and you wish to participate, please send me or the management company an email and we can get you a draft letter.

Again, the painting of all units on Arca and those on Canon del Sol below Sea Horse will commence on June 8. It will no doubt be a 2+ month process starting with the Canon del Sol units and ending with those on Arca. Affected owners will be getting further notifications and communications as the project progresses.

Finally, the newsletter project is a new one. It has been conceived, hatched and put into play by Lorraine Margon, wife of Board member Bruce Margon. The Board is most appreciative of, and enthusiastically supports, this effort by her. Comments about the periodical can, of course, be made directly to her, but if there is anything you think should be covered by this section please do not hesitate to contact me directly.

## Share the Road and Stay Safe

We live adjacent to a major bike route. And, bicycle safety is a serious matter. If you're not a cyclist, you likely have been annoyed by a cyclist who doesn't obey the laws or was just plain rude. If you are a cyclist, you have probably been upset by a driver who did something that threatened your safety.

A 2014 California law requires each of us to give a cyclist three feet of space between car and rider. However, you should not break any other driving laws in order to provide this separation. An article with details can be found at:

<https://bikeeastbay.org/GiveMeThree#4>

There are many arguments that giving three feet is not the answer to safety for cyclists, and that providing more bike lanes is the real answer. But we're stuck with what we have and have to make the best of it.

I cycle around the county, and have ridden back and forth along San Andreas Road. I've always been a rule follower, so I pretty much follow the rules of the road. I appreciate considerate drivers and respond with a wave of thanks. I wear a side-view mirror so to watch for cars, make eye contact with drivers, and try to share the road safely. I'm not boasting here. I just want to live a long life! And I, too, get annoyed at cyclists that give the rest of us a bad name. I've even ridden with some of them.

So, share the road. There are plenty of poor drivers and cyclists out there, but we've got to share the road with them all and live to tell about it.
